**FOR IMMEDIATE RELEASE
POST STIMULATION TESTING RESULTS OF RETI-2**

Calgary, Alberta: Jura Energy Corporation (“Jura”) is pleased to announce the post stimulation testing results of development well Reti-2, in the Reti lease, earlier completed in the Pirkoh Limestone Formation of Eocene age. During a short duration test on 48/64 inch choke, the well flowed gas at the rate of approximately 6.22 MMcf/d (net to Jura 0.66 MMcf/d) at a wellhead flowing pressure of 400 psi.

Jura holds a 10.66% working interest in the Reti lease, which is operated by Oil and Gas Development Company Limited.

About Jura Energy Corporation

Jura is an international energy company engaged in the exploration, development and production of petroleum and natural gas properties in Pakistan. Jura is based in Calgary, Alberta, and listed on the TSX trading under the symbol JEC. Jura conducts its business in Pakistan through its subsidiaries, Frontier Holdings Limited and Spud Energy Pty Limited.

See Jura’s annual information form for the year ended December 31, 2014, available on SEDAR at www.sedar.com, for further description of Jura’s properties, including the Reti lease.
